# TB 140C

## TECHNICAL DATA

Liquid cooled diesel engine	Deutz - TCD 6.1 L6 - 180 kW - 241 HP (Stage IV - Ready V) @ 2300
Infinitely adjustable output (max)*	140 m <sup>3</sup> /h
Max. aggregate size	40 mm
Max. working pressure	80 bar
Pumping cylinders	Ø 230 mm stroke of 2000 mm
Max. strokes	28
Drive cylinder diameter	140/90 mm
Delivery manifold	Ø 180 mm
Hopper capacity	550 l
Water tank capacity	700 l
Diesel tank	200 l
Filling height	156 cm
Chassis	steel crawler
Max. speed	2 km/h
Size (L x W x H)	645X240X275 cm
Weight	10.500 kg

\* The data indicated are theoretical and depend on the quality and consistency of the materials to be used, wear and tear of the pump and the diameter of the hoses. The performance in distance and height cannot be reached simultaneously.

## Characteristics

TB 140C is the new crawler concrete pump with S-valve and variable output designed for filling bored piles and special civil works. State of the art hydraulic system, solid structure, brand new components setup, reliable controls ensure high level performance with all sort of concrete and low operating costs.

## Applications

- Bored piles casting
- Pumping up to 40 mm of concrete
- Land reinforcement

## Technical comfort

- The practical doors on the canopy and the new construction concept make maintenance and control operations quick and easy.
- Discharge door hydraulically operated for fast cleaning operations.
- Components generously dimensioned.
- Large water tank integrated under cover.
- New internal layout concept.
- Compact design.
- New hopper-valve-agitator design ideal even for harsh concrete.
- Remote control for pump and crawler.
- Optical and acoustic warning device.

## Scope of delivery

- 6-cylinder liquid cooled turbo diesel engine
- Hopper assembly with S-valve and agitator
- Concrete grill with vibrator
- Automatic lubrication system
- Outlet collector Ø 180 mm with Victaulic couplings
- Hydraulic discharge door
- Safety horn
- Steel crawler chassis
- Hydraulic circuit with optimized exchange sequence
- Electromechanical control board
- Bosch Rexroth variable displacement pump
- Water tank with 700 l capacity built-in
- Water pump 40 l/m' - 20 bar
- Lifting eyes
- 4 working 15W led lights
- Delivery line laid laterally Ø 125
- Radio remote control for pump and crawler
- 2 washing sponges
- Manual grease pump
- Accessory box

## Optionals

- High pressure cleaner
- Various dimensions hoses Ø 150, Ø 125, Ø 100, Ø 75, and related accessories
- Hydraulically controlled air compressor, twin-cylinder, capacity 800 l/min with 50 l tank
- Rubber pads for crawler
